SUMMARY

Data Science-focused MIS student who turns raw data into measurable outcomes, from an 83%-accuracy CNN on image classification to a 99.5%-accuracy spam detection model. Proficient in Python, SQL, and predictive modeling, with Agile business experience from Akbank Technology. Looking for a Data Science / AI internship to apply this hands-on foundation to real business problems.

EDUCATION

İzmir Bakırçay University

Management Information Systems

Sep 2022 – Jun 2027

Vilnius University

Erasmus+ Exchange Program

Sep 2025 – Jan 2026

EXPERIENCE

Akbank Technology

Business Analyst Intern

İzmir, TR (Remote)

Jul 2025 - Aug 2025

- Facilitated project tracking processes within Agile environments and contributed to the preparation of technical documentation.
- Supported test automation scenarios to ensure consistency and enhance software quality assurance processes.
- Optimized requirement analysis processes by acting as a liaison between business units and technical teams.

PROJECTS

CIFAR-10 Image Classification with CNN | Python, Keras, TensorFlow

- Trained a custom CNN model from scratch, achieving ~83% test accuracy on the CIFAR-10 dataset using data augmentation and BatchNorm. Implemented EarlyStopping and model checkpointing to optimize training over 60 epochs, ensuring stable generalization on unseen data.

NYC Taxi Generous Tipper Prediction | Python, Scikit-learn, XGBoost, Pandas

- Built a binary classifier to predict whether NYC taxi passengers will tip $\geq 20\%$, using 2017 TLC trip records. Engineered 72 features including KMeans location clustering and Open-Meteo weather integration. Trained Random Forest and XGBoost models with cross-validation and threshold optimization, achieving F1 score of ~0.76 and Recall of ~0.83 on the test set.

VOLUNTEERING

Michaelshof Sammatz

Youth Volunteer

Sammatz, DE

Jan 2026 – Feb 2026

- Supported daily community activities and collaborated with international volunteers in a sustainability focused environment.

İzmir Bakırçay University MIS Community

Board Member and Organization Coordinator

May 2024 – May 2025

- Led the organization of seminars, workshops, and conferences.

İzmir Bakırçay University MIS Community

Organization Team Member

Sep 2022 – May 2024

- Assisted in planning speaking clubs and other campus events.

SKILLS

Technical: Intermediate Python, SQL, Power BI, Tableau, Excel, Jira

Language: Turkish (Native), English (Fluent)

Certificates: Google Advanced Data Analytics Professional, Google Project Management Professional
